BSRA 16: TWO INVENTORS RETURN and PROJECT HERMES. The first section of 22 pages is a fascinating account by the late General Electric scientist and inventor, J. Gilbert E. Wright of his attempts to contact Edison and Steinmetz through mediums. Apparently he was successful in many instances and gained useful information in the construction of a psychic microphone, includes sketches of the Edison Psychic Microphone and of the Vandermeulin Spirit Signaling Device. The second section of 8 pages contains a diagram of an electronic device for stimulating the telepathic transmitting and receiving centers in the brain, with instructions for building it, and discussion of its possible effects on the user. Included here also is what purports to be a telepathic discussion with Nikola Tesla of the value of the Project Hermes device and the "brain wave scale" of various levels of humanity. $1.00

BSRA 17: THE HEFFERLIN MANUSCRIPT. Here is offered to the Associates Gladys and W.C.Hefferlin's description of the fabulously unbelievable Rainbow City in the Antarctic continent, includes details of the vast underground terminal and the tunnel system to all the world, the Ancient Three and how they operate, the mysterious Portals, and the Serpent People -- man's ancient and relentless foe in the migration from planet to planet. To the present Director of BSRA this portion of the Hefferlin Manuscript, 30 pages mimeo, is a curious blend of fact and fiction impossible to separate without some personal means of verifying the data. The Hefferlins were releasing their material to a few receptive individuals in America at the same time that Ray Palmer was exploiting the Shaver Mystery in Amazing Stories. Though there is little to substantiate the Hefferlins' claims we believe their material deserves a place in every Saucer researcher's reference library, as does the Shaver data. We hope to release other portions of the manuscript in 1961, some 160 pages in all. 30 pages mimeo. $1.00

BSRA 18: MYSTERY SCHOOL TRADITION, AND ITS MEANING TO YOU. This is an adaptation of the first six chapters of Dion Fortune's masterful "Esoteric Orders and Their Work". Miss Fortune wrote in the 1920s

for an English audience. The present director of BSRA and his wife have adapted the material for present-day Americans curious to know more about the hidden forces shaping the destiny of the Western world. Chapter headings: Esotericism, Occultism, Mysticism; The Origin of the Mysteries; The Origin of the Three Great Occult Traditions; The Paths of the Western Tradition; The Evolution and Functions of the Masters; and The Training and Work of an Initiate. 40 pages mimeo. $1.50

BSRA 19: UNPUBLISHED SEANCES. When the present director of BSRA took over on June 1, 1959, he received from Meade Layne a stack of typewritten originals and carbon copies of transcripts of Mark Probert seances held in 1948, 1949, 1950 and 1951. Though Mr. Layne occasionally quoted from these in Round Robin, CQC, or special brochures, for one reason or another they remained unpublished. This material is valuable and when and as it can be sandwiched into our other work, its release will be announced in our Journal. The first booklet of the Unpublished 1948 series is out now. 30 pages mimeo. $1.00

A BORDERLAND CONVENTION under the sponsorship of BSRA is being planned for the July 4th holiday, 1961 and the tentative location is Harmony Grove, about four miles west of Escondido, California. In addition to Flying Saucers, Convention lectures, discussions and displays will touch other aspects of borderland phenomena: mediumship, telepathy, teleportation, hypnotism and similar areas of research. A membership in BSRA at $5.00 a year is the best way to keep in touch with us.
